A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 20, 2004 has been entered.

Claims 1-12 are pending.

#### ***Drawings***

The drawings were received on April 20, 2004. The content of the drawings is accepted however, the Applicant is requested to submit all the pending drawings.

The drawings must be submitted no later than the payment of the issue fee.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted above. Failure to timely comply will result in ABANDONMENT of this application. **THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.**

#### ***Allowable Subject Matter***

Claims 1-12 are allowable over the prior art of record.

The following is an Examiner's statement of reasons for allowance:

Art Unit: 2171

Claims 1, 2, 6 and 12 are allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a mediator between search engines and source servers deciding which received indexes to distribute to which retrieval engines, as claimed in addition to the other claim provisions.

Claim 8 is allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a mediator between search engines and source servers, deciding which retrieval engines are suitable to receive pushed index information, as claimed in addition to the other claim provisions.

Claim 9 is allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a mediator program to push different push-programs to different types of web servers wherein each push-program responds to detected changes in the web servers by pushing to the mediator program indicia of the differences, and sending the indicia of the differences to retrieval engines, as claimed in addition to the other claim provisions.

Claims 3-5, 7, 10 and 11 depend from claims 2, 6 and 9 respectively, and are therefore allowable.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to illustrate the state of art with respect to mediators, push programs and indexes:

U.S. Patent No. 5,892,909 of Grasso et al.

U.S. Patent No. 6,188,695 of Przybysz

Art Unit: 2171

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
